RARE, MEDIUM, WELL-DONE By GEO. H. CARVER, Sports Editor

DEONTO AT POINT ANNE

Some pretty tough actiball squads have come out of Toronto in the part to de playdown buttle thisaway and Sajarday should see no change ill the rute when the Toronto Avon Sparts club crosses battle area with Folial Anne ill the third reund ill the OASA intermediate "A"

The Ozt Pointers came up with one of their best perfor-mances of the season the other evening when they elimina-ted the Oshawa Motors behind Bobby Hull's five-hit hurling. They clustered their hits III a four-run splange while their defensive play was one of their best offorts of the season.

Has they will probably need all their ability on Sal-urday. Pat Maracle will likely re to the mound while Coach Patl Left will send his best artillery to the plate in offensive action. It should be a thriller, The game reta under way at 4.38.

Another Belleville actional squand seeking provincial honors will also meet a citif test on Saterday when Lee Culhaner. Beeckly perwess fash one the Toronio North Yorke in Toronio in the first of a best-of-three semi-finals arries. The second game is asked for Belleville the following daturday at the CNRA Fark at three o'clock,

Culhane's starry youngsters compiled a fine record this year. They won 14 out of 16 starts in schedule play, climinated Shannouville in two straight ill their first playdown spries, and gave the Othawa youngsters the same treatment in the second round.

Members and potential members of the McForlands ofer Club are reminded of the meeting tenight at the mortal Areas starting if J.B. Robert Salland, vice-dicent and general manager of the Willing Dunches where Club will, be the guest speaker and will offer guestions and soften. Finnes note change of location.

Adapting some in their unusual wrestling technique in sting methods in their native Australia, Heffernan itelilo have developed a particularly effective offensive s in which their opponents' necks are the prime target. "The rabbit punch was developed in Australia," ex-ines Heffernan, "At first it was an casy and quick me

But it is still legal in weighting and and I have developed per own system of using it in I the most effect. Not soo many men can keep their near when it is used on them.

The two Australians, both enthusiastic hunters with the boomerang in their own country, point out that a blow from a heavy hunting boomerang does not always kill the animal-arpecially the larger ones.

With the quarry sunned, a here-handed hitt follow-ed-with his neck again the target. Either of the two grapplers would walk up to the animal and brank its neck with a quick twist developed through hours of practice

In several other ways, the Australians have pertacks that take full advantage of the weakness of

Maffernan, particularly, can deliver a stanning twist with his feet alone — utilar his whole body, however, to add to the pressure applied in his neck twist, fand when either man diver from a corner ill the famous "Managawe "Leap" that has ended many of their matches, the neck is not to the property of the famous that has ended many of their matches, the neck is

And the becomerang-ionaling kangaros highling cobbers have a couple of special necks as their targets ionnersweathly high. Messars. Fred Althan, another Australian who abould know all about kangaross and becomerants, owns one while the other is statebed to the shoulders of Fritz Von Erich.

Two referees will be on hand to set as judge and jury eviding they don't intercept any boomerang forward passes block a couple of kangaroo kicks.

rum Ottawa comes the announcement that Can-IX.000 rural mail carriers have been warned to be from political activities, either in the federal orthocial fields.

Many Canadians will be surprised that such a raming was necessary, for we age not accustomed to re circl servants participating in politics. It may possible to elicit some opinion from "postie" regard-ig the state of the nation, even when an election is the offing, both even circl servants are human and anoth live in a vacuum. We feel certain that Post-sisted-General William Hamilton would not consider state-General William Hamilton would not consider the proper to be a server to be a server to the con-trained of the contract of the con-tained that the contract which we have the large to not be a server to be a server to the con-tent of the contract of the con-tent of the con-ten tige to notificate activities. Are trural mail carriers different that a warning was necessary? Apparently or are - with good reason. Rural mail carriers so not civil servants. They do not hold government ba, but contracts to deliver the mail.

Tips warning against political activities is thus

The warning sagnast political activities is thus below the property of the property o

Somebody may suggest that, if rural mail carriers similit the function of civil servants and are required ill-ct like them, perhaps they should be civil servants in lart. Perhaps rural mail should not be delivered by

Once again, in theory, there would be much to as a direction.

Chore of abundoning the contract system. In practice, though, any change would almost certainly prove styling. The runs portman cannot make his rounded to the state of the case to government would have be stoking to the case of the contract of the sain buy, the insurance which it would have be subsided the second of a "oost delivering runs mail was a "job" instead of a "o

This is not to say that the Postmaster-General's passengery fine ing against political activities by these men will not keeping dork hardships, in some cases, and may not have the other insection. ally undesirable effect of lowering the public interest political affairs in some communities. Many rural all carriers are leaders in their home communities it would be surprising if there were not among them se who had taken active rules in the political life me who mad taken active rose in the political life that districts. There is, however, one confort. In any cases these men have other sources of income actives their contracts for the delivery of rural mail and there are any among them whose love of politics, tweight their need for a little extra cash they will be te to abandon their mail routes without giving up their. source of revenue.

Jimmy Ross, who won his fifth start in six play-down games, hurled fine ball while Carl Boomhour's out-field catches bordered on the sensational. The Bootha play-ed heads-up softball and thoroughly deserved their victory. They have high hopes of taking this series and again entering the OAS peewee finals.

phicie in Fanet without tee much make-up, has dual personalities. In his new pince of business, and secial-ly, he is warm, friendly with a likeable smile. In heckey harness behind the bineline, given many an feeman the litters.

Bengit is one of the most popular "imports" to wear, a Believille hockey uniform. But he has outgrown the import class. He is now a citizen of Believille and intends to remain in that status.

"I liked Relieville from the start," he told this reporter "and I seen made up my mind that if would like to seek here. The people are warm and friendly and did no treat us as strangers. That is mainly the runois, why i made this husiness move."

And Moe proved that in another way. When the man-ger of a citib in the Eastern Hockey League recently made in a "fabulous" offer to play for his team, Moe replied thin a firm but polite "No."

"Belleville is my home now," he told the man with the ulten glove. "And I have no intention of leaving it, in fact I would not leave here or play for another club or twice the effer."

This department joins backey funders in general and the many other friends of the popular defencement in withing lifes the ultimate in success in the new business venture. It couldn't happens to a flarer guy.

#### TOR IS "JOE"

The Cornwall Chevier after a somewhat exhaustive search of the more or less fertile player fields finally de-cided on a close-st-home choice to fill their playing-coach vacancy.

The mantic full upon the broad aboutdors of Joo La-gine, a max-battleour on the ice and a definite mersic buttler in the freesing room. Joe fills the shating beets of the departed Gerry Finneedox, who brought the Christ cut of rain carly-cases delorizes taxt year and teak them to account-piece in the league standing, and a player precise with the McTarlands.

". We are not aware of the coaching ability of Lepine but fandom here, ne well as that in other coolers sente "A" league contree, know Joe's ability behind the bloe line. He tips the contest it well over 250 pounds—an known how, to use it.

Lepine was rated one of the hardest hitting defence-men in the league last year, but a severe leg injury alde-lined him in the latter stages, and his services were lost to the Chevies in the all-important playoffs.

Lepins's new anthority as playing coach may change his dressing-room disposition, but last year, his stone of hamor kept the Chevier spirits high white readying for the ice.

We recall visiting the Chevies dressing room on the fit t of Lepine as a Chevic. The players were roaring a Lepine saily when we entered.

"Are you a new player with the Chevies?" we asked Joe looked up from incing a boot. His open invished. He shifted his 100-edd pounds alightly and quipped, "No, had, I'm not in the act. I'm one at the orthestra."

Fads are no substitute for fashion. Extreme styling flares up : : : and dies out quickly. The lines that linger are the lines where beauty and dignity gracefully blend. Most popular proof of this is the Pontino you see here. This is the one car so many Canadians decided they did want to live with. For here, in Pontiac, they found a flair for fashion and fine finish no other car in its class could offer. You, too, will find Pontiac's elegant look the most eloquent tribute to your own individual tasta.

### WHY DIFFENRANCE GOT HEADLINES

The Ottawa Journal raises its editorial systrows at the publicity which U.S. newspapers have given a speemt address by Prime Minister Diefembaker at Dart-

mouth.

In the past, it says, "statements and speeches by Canada's public men pointing up problems or difficulties in Canadian-American relations seldom get through the American people."

But with Mr. Diefembaler's speech, the situation was different. "A curvey of comment shows newspapers in all sections of the republic stirred to interest and concern."

### MILITARY PLANES HIT HOMES

This week, on the same day at widely separated cities in the U.S., military planes crashed into homes. At Van Nuys, Cal., a housewife was nearly trapped by flames which turned her home into a funeral pyre

for two airmen in a T-33 jet.

At Dayton, Ohio, four persons, including two civilians, died when a B-26 bomber destroyed or damaged

### MILITIA"IN THE ABOTIC

Members of militia units which earn the Queen's shilling the hard way may read with envy of the Es-kimo Rangers, who never drill and wear no uniform. The Rangers, however, have a ready answer to any

white man who charges them with enjoying a soft touch. They get no pay.

Millia members in the more civilized parts of Canada may answer, in their turn, that the Rangers get free ammunition and use it for hunting.

Perhaps the Rangers, though, would reply that the only meas they get into is when a walrus or polar bear takes exception to being used for target practice.
